Industrial Automation Solutions

a Power-Flo Technologies company

2016 AUTOMATION EXPO

**WE WANT TO
THANK YOU!**

Dear Customer,

Thank you for supporting last week's Axis NJ Automation Expo: "Increasing Productivity through Advancements in Automation Technology". It was exciting to bring together a wide array of cutting edge technology and demonstrate how manufacturers and OEMs are applying best of breed solutions throughout the entire automation architecture to create unique value for their own customers. Based on feedback we received, we are confident that our customers and suppliers were able to collaborate to solve their current challenges and gain insight for the future. The Axis NJ team looks forward to working with each attendee over the next few weeks to follow-up with action plans to achieve mutual success.

Sincerely,

Thomas Bopp

Vice President

Industrial & Automation Sales

RAFFLE PRIZE WINNERS

Slavek Kubicz, Benjamin Ramos, Bill Binder, Herman Herrera, Mike Shaw, James Vassallo, Randy Sautner, Dave Jerzewski, Danny Rich, John Kuzma & James Calichio
